

Scenario

A working professional wants healthy South Indian meals to support weight loss. They are vegetarian, based in Tamil Nadu, and spend most of the day at an office desk. Your job is not to write the meal plan by hand - it is to write a well-structured prompt that makes an AI model produce the plan for you. Framework: RTCFR (Role, Task, Context, Few Shots, Response Format)

Input to chat GPT:

RTCFR Prompt: Healthy South Indian Weight-Loss Meal Plan

Role

You are a certified Indian nutritionist and weight-management diet planner with expertise in South Indian vegetarian diets. You create practical, sustainable, and nutritionally balanced meal plans for working professionals.

Task

Create a 7-day healthy South Indian vegetarian meal plan that supports gradual and sustainable weight loss. The plan should include breakfast, mid-morning snack, lunch, evening snack, and dinner for each day.

Context

- The individual is a working professional based in Tamil Nadu, India.
- They follow a vegetarian diet (no meat, fish, or eggs).
- They spend most of their workday sitting at an office desk.
- Their goal is weight loss while maintaining energy and productivity throughout the day.
- Meals should be based on commonly available South Indian ingredients and dishes.
- Avoid highly processed foods, excessive sugar, deep-fried snacks, and calorie-dense desserts.
- Emphasize portion control, adequate protein, fiber-rich foods, hydration, and balanced nutrition.
- Include healthy traditional options such as idli, dosa, upma, pongal, millet-based dishes, sambar, rasam, kootu, poriyal, curd, sprouts, legumes, and nuts where appropriate.
- Ensure variety throughout the week and avoid repeating the same main meal too often.
- Suggest healthier alternatives when a traditional dish is typically high in calories.

Few-Shot Examples

Example 1

Input:

Vegetarian office worker seeking weight loss.

Output:

Breakfast: 2 millet idlis with sambar

Mid-Morning Snack: Guava

Lunch: Brown rice, mixed vegetable sambar, beans poriyal, cucumber salad

Evening Snack: Buttermilk and roasted chana

Dinner: Vegetable soup and moong dal chilla

Example 2

Input:

Sedentary professional requiring a balanced South Indian diet.

Output:

Breakfast: Vegetable oats upma

Mid-Morning Snack: Papaya

Lunch: Red rice, keerai kootu, rasam, cabbage poriyal

Evening Snack: Green tea and sprouts salad

Dinner: 2 wheat dosas with tomato chutney and vegetable kurma

Response Format

Provide the meal plan in a clear table with the following columns in a colourful image

Day Breakfast Mid-Morning Snack Lunch Evening Snack Dinner

After the table, include:

1. Daily hydration recommendations.
2. Portion-control guidelines.
3. Suggested weekly grocery list.
4. Tips for office workers to stay active despite a sedentary job.
5. Estimated calorie range per day suitable for weight loss.
6. Key nutritional benefits of the meal plan.

Simple.
Wholesome.
Sustainable.

1 DAILY HYDRATION

- Drink 2.5 – 3 litres of water daily
- Start the day with warm water + lemon
- Carry a water bottle to office
- Include buttermilk, rasam, tender coconut water

2 PORTION CONTROL GUIDE

- ½ Plate – Vegetables & Salad
- ¼ Plate – Whole Grains (Rice/Millet/Chapati)
- ¼ Plate – Protein (Dal/Legumes/Pulses/Curd)
- Eat slowly, stop at 80% full

3 WEEKLY GROCERY LIST

Whole Grains: Brown Rice, Red Rice, Millets (Ragi, Thinai, Kambu), Oats, Wheat
Pulses & Legumes: Moong, Toor Dal, Chana Dal, Green Gram, Chana, Peanut
Vegetables: Greens (Keerai), Beans, Carrot, Beetroot, Cabbage, Bottle Gourd, Brinjal, Cucumber, Tomato, Onion
Fruits: Apple, Papaya, Guava, Orange, Banana, Pomegranate, Watermelon
Nuts & Seeds: Almonds, Walnuts, Peanuts, Flaxseeds, Chia Seeds, Makhana

4 STAY ACTIVE AT WORK

- Stand up & stretch every 45–60 min
- Take short walk breaks (5–10 min)
- Use stairs, not lifts
- Do desk stretches (neck, shoulder, back, wrist)
- 7,000–10,000 steps/day goal
- 20–30 min brisk walk or yoga daily

5 CALORIE RANGE

1200 – 1500 kcal/day
 (Ideal for gradual & sustainable weight loss for most adults)

KEY NUTRITIONAL BENEFITS

- High in fiber – keeps you full longer
- Good protein – preserves muscle mass
- Low GI carbs – steady energy
- Rich in vitamins, minerals, antioxidants
- Supports gut health & digestion
- Heart-healthy & diabetes-friendly

Remember: Consistency > Perfection. Sleep 7–8 hours, manage stress, and stay positive!
